

Do You Have Room in your Heart & Home for a brother and sister???

We are looking for a permanent home for two Caucasian siblings - a 6 year old girl and a 5 year old boy. They were removed from their parents due to neglect. They are very close to each other and love to play together. They definitely need to be adopted by the same family. The children are sweet and have made a lot of gains since they came into DCF's care. The rights of their parents have not been terminated so a family would need to foster them until they can be adopted.

If you have space in your home and in your heart for these two young children please contact Margaliet at 203-389-5599 ext. 105.
